Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/597,855	Applicant(s) TOAL, TERENCE	
	Examiner JOSHUA I. RUDAWITZ	Art Unit 3652	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 08/10/2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 10-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. With regards to claim 10, and subsequent depended claims, the claims provide limitations that follow a “wherein” clause without positively reciting additional structure. For example, the text that follows the “wherein” clause in lines 7-9 and 10-12, of claim 10, do not limit the claim to a particular structure, rather makes optional, see MPEP 2111.04. For the sake of examination, it will be treated as a functional limitation.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3652

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 10-17 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Poten et al. (US 5,249,907).

Poten et al. discloses a carriage 1 with wheels 3 able to hold a defective wheel 30; a belt 6 for securing the defective wheel; the belt has a first end connected to the carriage, see figure 1; the second end of the belt can hold the wheel in place when hooked to a second end of the carriage, see figure 1; the length of the belt can be adjusted, via clamp 7; a ramp 4; the ramp and the carriage are separate parts and the ramp is hooked onto the axel of the carriage, see figure 3; the carriage has a bottom part that has rollers and a top part that is on top of the bottom part; the carriage has three wheels, as seen in figure 2.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Poten et al. (US 5,249,907).

Poten et al. discloses the bottom part is made of sheet metal, however fails to disclose the top part is made of plastic. It would have been obvious to a person having ordinary skill in the art, at the time of invention, to use plastic for the top

part, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice.

Conclusion

9. The prior art made of record and not relied upon, but is considered pertinent to applicant's disclosure is found on the PTO-892.
